***Theme: Roots of Functional Integration, simple and basic:
a synthesis of the skeletal segments and an interface of two nervous systems***

Sub-theme: Yvan's innovation: ATM lessons for two partners

Moshe Feldenkrais often referred to his individual lessons as a form of partner dance, an interface of two nervous systems, one listening to the other, one moving the other.

Each day of this workshop we will experience **solo ATM lessons AND duo ATM lessons**. Each lesson will be analyzed skeletally and somatologically and hands on applications will highlight the connection of two nervous systems as one unit.

Duo ATM lessons originate from Yvan's experience with various dance forms (Mainly Contact improvisation and Tango) sports and martial arts.
